Major String Service

Colour strings from inhouse production

Major is the only company in Germany offering a comprehensive range of colour strings produced in house for all popular makes of colour changers.

Our specialists have vast experience and devote themselves exclusively to the tailoring and fine-tuning of colour strings.

In addition to the standard strings, specific and custom requests are always available.

The choice is yours: whether you need standard lengths/equipment, a mixture of equipment or a varied numbers of colours: customer wishes are met quickly and flexibly in the best possible quality finish.

We process primarily Rosco filter products, but other reputable manufacturers' goods, such as LEE, are available at all times.

All strings | All colours | All designs | All changers

You can find further information on gel strings, plus examples and an order form here:

www.major-lighting.com/string-service

Regardless if you are in need of standard strings or need a customised one – our specialists realise all customer requests quickly and flexible.

Major belongs to the Lightpower group of companies. Lightpower is an internationally renowned distributor for professional stage lighting and show technology equipment. The company offers a unique product synergy together with a comprehensive package of services – in the theatre and television sectors as well as for live stage and all other areas of entertainment.

All Major products like luminaires, power distributions, cables and connectors, lighting controls and dimmers, rigging and safety ropes as well as colours and effects are built in Germany and have earned themselves a great reputation for being used on multiple international projects over the years. Major products are high quality and have been adapted following direct communication with our customers to fulfil their needs. Major products solve problems and are made for daily use, offering an optimised price-to-performance ratio.
